

Optional home learning

History

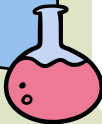

- Research a local family through the census
- Use the census data available to see who lived in your house in the past. What sorts of jobs did they have? How big was their family?

PSHE

- January is a time of building good habits! Create a diary to show how you have tried to improve one health behaviour over the course of the month (for example drinking more or reducing screen time)

Science

- Research the life of Charles Darwin - present your learning in a way that you find interesting.

Reading

- Recommend a book to a year 4. What was your favourite book when you were 8? Why was it?

Art

- Using your device, recreate a famous scene from a movie, tv show, book or painting using props from around your house.
